QUARTZ MANUFACTURING

Tenax manufactures a full line of calibrating tools to fit most Bretonstone™ Calibration lines and different other manufacturers. Please inquire for kind/type/availability and pricing at info@tenaxusa.com.

EVOLUTION - Tenax has developed a new concept of metal diamond abrasive with the use of nano-metal powders (on request cobalt free) and an innovative production technology.

- Perfect cutting capacity
- Easy and fast adaptability of the tools at the first installing
- High performance in line speed and tools lifespan
- Lifespan: 20.000-100.000 mt²

New 17cm Rounded Shape - New Formulation

FUSION QUARTZ - Our proprietary FUSION Q technology allows a smoother and more gradual polishing steps (thus providing a deeper polish and less shadowing), a higher removal rate and 90% reduction of slab re-polishing. The long lasting formulation makes them extremely economical and a true necessity for quality oriented manufacturers. Creates consistent, smooth and flat surface on any kind of slab.

- Intense color and deep clear gloss effect of polishing on any kind of slab
- Easy and immediate adaptability of the tools at the first installation
- High performance in line speed and tools lifespan

Fusion Type	Hardness
D	Very Hard
T	Hard
TX	Medium Hard
TT	Medium
TTS	Soft
XTs	Very Soft

17L: Standard Shape - No Rubber

FUSION TASS - The best solution to easily lead the slabs to go in the polishing machine fom the calibration. Fusion Tass improves the first polishing step, more than a brush.

- Unique solution to keep the slabs flat in the entrance phase in the polishing machine, helping grinding before the metal fickerts
- High performance in line speed and tools lifespan

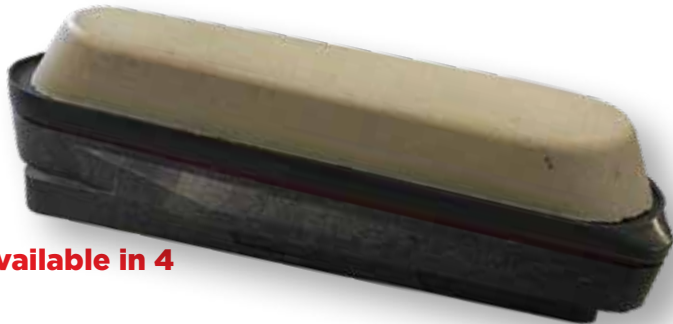

FINE GRAIN - Diamond resin bond tool for the gloss at the end of the sequence. Available in in 4 formulas for standard and glass/mirror compound.

- Gloss up to 60-70, uniform and clear effect especially on micro crystobalite compound.
- Makes the surface glossy and uniform on any kind of compound colors
- Lifespan 5.000 - 12.000mt²

17 Finegrain: **Standard shape with rubber**

CODE	GRIT						TYPE	SHAPE
SE17FIN-Q	1000	1200		1800	2500	3500	RR	17/R6
SE17FIN-Q	1000	1200	1500	1800	2500	3500	GS	17/R6

17 Finegrain **RS10: New formulation, white color. Available in 4 different formulations.**

CODE	GRIT						TYPE	SHAPE
SE17FIN-Q	800	1000	1200	1500	2000		RS10	17L/R6
		1000	1200	1500		2500 3000	RVA	

MAGNESITE - Magnesite standard tool with special formula for quartz.

- Good performance in terms of cut and finish
- Consistent finish
- Consistent performance on all types of agglomerate

BRUSHES - Tenax offers special patented brush (Q-Flex) type. This range of brushes, creates unique, consistent and delicate to the touch finishes, with results different from the common antique effects made by standard carborundum and diamond wire brushes.

- Result is very natural looking
- Completely consistent finishing, without rotational signs or color differences
- Good stainless property

14 Q-Flex: **EX-Extra, to dig more; LUX-to increase the gloss; H-Honed, soft**

CODE	GRIT										OPTION	SHAPE
SE14 Q-FLEX	60	80	120		220	300	400	600			EX	SL6
SE14 Q-FLEX/H			120	180	220	300	400	600	800			SL6
SE14 Q-FLEX/LUX			120		220	300	400	600	800	1200	EX	SL6

14 Q-Flex Comb: **New “combo” shape: Same grits and types as the Q-Flex (Extra, Honed, Lux)**

CODE	GRIT										OPTION	SHAPE
SE14 Q-FLEX COMB	60	80	120		220	300	400	600			EX	SL6
SE14 Q-FLEX COMB/H			120	180	220	300	400	600	800			SL6
SE14 Q-FLEX COMB/LUX			120		220	300	400	600	800	1200	EX	SL6

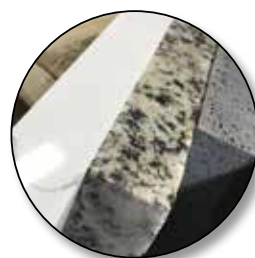

14 Top Quartz: **Longer life and flatter surface. XL-Extra; LUX-to increase gloss; H-Honed, soft**

CODE	GRIT										OPTION	SHAPE
SE14 TOPQUARTZ-H				400								SL6
SE14 TOPQUARTZ-XL	60		300	400								SL6
SE14 TOPQUARTZ-LUX		220	300	400	600	800	1200	2000		EX		SL6

W EDGE POLISHING WHEELS - Tenax Quartz Automated Edge Polishing wheels are excellent on all materials including quartz, granite, marble, porcelain and ceramic. They can be used for either a straight edge or a bullnose edge. Designed with colored holders for easy ID. 5" or 6" sizes available with a universal snail lock and hexagon attachment which make them easy to change. These Tenax automated edge polishing wheels will not bleed onto white quartz and provide an excellent polish for a great price. Expect an easy break-in period, long life and a great polish from beginning to end.

- Available in 5" and 6"
- Use for straight edge or bullnose
- Will not bleed onto white quartz
- Excellent polish with an excellent price

GRIT SIZES AVAILABLE				
60	120	220	400	600
800	1200	1500	2000	3000

80 & 1000 grit also available in limited quantities

FULL BULLNOSE SNAIL LOCK AUTOMATED EDGE POLISHING WHEELS - Tenax Quartz Automated Edge Full Bullnose Polishing wheels are excellent on all materials including quartz, granite, marble, porcelain and ceramic. Designed with colored holders for easy ID. 5" available with a universal snail lock and hexagon attachment which make them easy to change. These Tenax automated edge polishing wheels will not bleed onto white quartz and provide an excellent polish for a great price. Expect an easy break-in period, long life and a great polish from beginning to end.

- Available in 5"
- Excellent for radius work
- Great for small radius and top of stone work
- Will not bleed onto white quartz
- Excellent polish with an excellent price

GRIT SIZES AVAILABLE			
120	220	320	400
800	1200	2000	3000

QUARTZ REPOLISHING KIT FOR SINGLE HEAD MACHINES - Tenax has created a kit for repolishing dull and scratched quartz slabs. Created for fabricators that have a single head machine and want to repolish engineered stone. This kit is the only working solution to achieve a uniform finish and a high gloss both in fine and large grade quartz surfaces. Made with the same abrasive formulation used in the major manufacturing quartz facility around the world.

5 Brick Heads Kit includes:
Grits:

- (5) Fusion 80 TTS
- (5) 120 TTS
- (5) 220 TTS
- (5) 400 D
- (5) 800 D
- (5) Fg 1800 RR
- (5) 2500 RR
- (5) 3500 RR

6 Brick Head Kits also available.

WE CREATED THE BEST QUARTZ BLADE ON THE MARKET!

- Razor edge cuts - even with miter cuts
- Whisper-quiet cutting
- Premium silent core = zero deflection on miter cuts
- Extremely smooth cut (almost a 200 grit finish)
- Perfect balance between performance and cost
- Available in 14", 16" and 18"

TITANIUM EXTRA RAPID COLOR CARTRIDGE GLUE

OVER 30 COLORS AVAILABLE

- + Vinyl ester adhesive
- + Bi-component cartridge
- + For use on all granite, marbles, quartz, quartzite, ceramic materials
- + No drips
- + Super fast
- + Very polishable
- + Easy to apply

SEALING, CLEANING & PROTECTING QUARTZ SURFACES JUST GOT EASIER!

Tenax Quartz Shield

Tenax Quartz Shield is a water-based water and oil repellent for use on quartz and engineered stone. Provides excellent stain proof power.

Tenax Quartz ExtraClean Pro

Tenax Quartz ExtraClean Pro is used to remove grease and dirt from quartz surfaces. It will also remove marks left by suction cups used in the handling of the stone slabs.

Tenax Quartz Toner Plus

Tenax Quartz Toner Plus can be used to enhance quartz, engineered stone and agglomerate stone. Works as an enhancer and a premium grade sealer.

Tenax Quartz Ax Cleaner

Tenax Quartz Ax Cleaner is a water-based descaling cleaner designed specifically for use on quartz material with a variety of finishes. Quickly and effectively cleans and removes dirt and lime deposits that may be present on the surface of quartz.

Quartz Toner Plus & Quartz Shield are safe for food contact.
