

Voluntary Informative Product Sheet

1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name **FINEGRES**
Chemical name and synonym **STARK ABRASIVE WITH ORGANIC BINDER**

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use **Diamond tools with resin binder used pre-polishing of marbles, granites and composites**

1.3. Details of the supplier of the voluntary informative product sheet

Name **Tenax Spa**
Full address **Via I Maggio, 226**
District and Country **37020 Volargne (VR)**
Italy
Tel. **+39 045 6887593**
Fax **+39 045 6862456**
e-mail address of the competent person responsible for the voluntary informative product sheet **msds@tenax.it**

1.4. Emergency telephone number

For urgent inquiries refer to **800.883300 (24h)** **Centro Antiveleni (Bergamo)**

2. Hazards identification.

2.1. Classification of the substance or mixture.

Not applicable.
The abrasives are articles, not dangerous substances neither mixtures pursuant to Directive 1999/45/CE or Regulation 1272/2008/CE.
The product contains hazardous substances in concentrations such as to be declared in section no. 3.

2.2. Label elements.

The abrasives are articles, not dangerous substances neither mixtures, so are not subject to hazard labelling pursuant to Directives 1999/45/EC or Regulation 1272/2008/CE.

2.3. Other hazards.

Information not available.

3. Composition/information on ingredients.

3.1. Substances.

The product does not contain substances classified as being hazardous to human health or the environment pursuant to the provisions set forth in Directives 67/548/EEC and/or EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements).

3.2. Mixtures.

Contains sodium chloride in thermosetting binder.

4. First aid measures.

4.1. Description of first aid measures.

CONTACT WITH THE SKIN: none known harmful effect.
INHALATION: impossible for the typology of the product.
INGESTION: improbable for the typology of the product.
CONTACT WITH EYES: impossible for the typology of the product.

4.2. Most important symptoms and effects, both acute and delayed.

No episodes of damage to health ascribable to the product have been reported.

Tenax Spa FINEGRES

Revision nr.1
Dated 15/01/2018
Printed on 15/01/2018
Page n. 2 / 4

4.3. Indication of any immediate medical attention and special treatment needed.

Not considerable. Asymptomatic treatment.

5. Firefighting measures.

5.1. Extinguishing media.

SUITABLE EXTINGUISHING MEDIA

The extinction equipment should be of the conventional kind: carbon dioxide, foam, powder and nebulised water.

EXTINGUISHING MEDIA WHICH SHALL NOT BE USED FOR SAFETY REASONS

None in particular.

5.2. Special hazards arising from the substance or mixture.

HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE

Do not breathe combustion products (carbon oxide, toxic pyrolysis products, etc).

5.3. Advice for firefighters.

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health.

Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS

Hardhat with visor, fireproof clothing (fireproof jacket and trousers with straps around arms, legs and waist), work gloves (fireproof, cut proof and dielectric), a depressurised mask with facemask covering the whole of the operator's face or a self-respirator (self-protector) in the event of large quantities of fume.

6. Accidental release measures.

Not applicable.

7. Handling and storage.

Follow the instructions of the grinder machines producers and the reference national regulations.
Observe also the producer's safety recommendation.

The material is an inert solid with high specific gravity: handle it with care and avoid lesions for impact.

Specific end use(s).

Information not available.

8. Exposure controls/personal protection.

8.1. Control parameters.

Information not available.

8.2. Exposure controls.

Observance of safety measures used in handling chemical substances.

RESPIRATORY PROTECTION

Wear a protective equipment for the respiratory tract.

EYE PROTECTION

Use of protective airtight goggles recommended.

HAND PROTECTION

Use protective gloves.

SKIN PROTECTION

Wear protective clothes.

Note: dangerous powder resulting from manufactured material can be generate during the working operations. Consider the national regulation for the powder exposition limit values.

9. Physical and chemical properties.

9.1. Information on basic physical and chemical properties.

Appearance	solid
Colour	Not available.
Odour	odourless
Odour threshold.	Not applicable
pH.	Not available.
Melting or freezing point.	Not applicable
Boiling point.	Not applicable.
Distillation range.	Not applicable
Flash point.	Not applicable.
Evaporation Rate	Not available.
Flammability of solids and gases	Not available.
Lower inflammability limit.	Not applicable
Upper inflammability limit.	Not applicable
Lower explosive limit.	Not applicable.
Upper explosive limit.	Not applicable.
Vapour pressure.	Not available.
Vapour density	Not available.
Specific gravity.	Not available.
Solubility	Contains not dangerous material soluble in water (NaCl)
Partition coefficient: n-octanol/water	Not available.
Ignition temperature.	Not applicable
Decomposition temperature.	Not available.
Viscosity	Not available.
Reactive Properties	Not available.

9.2. Other information.

VOC (Directive 1999/13/EC) :	0
VOC (volatile carbon) :	0

10. Stability and reactivity.

10.1. Reactivity.

There are no particular risks of reaction with other substances in normal conditions of use.

10.2. Chemical stability.

The product is stable in normal conditions of use and storage.

10.3. Possibility of hazardous reactions.

No hazardous reactions are foreseeable in normal conditions of use and storage.

10.4. Conditions to avoid.

None in particular, however the usual precautions used for chemical products should be respected.

10.5. Incompatible materials.

Information not available.

10.6. Hazardous decomposition products.

In the event of thermal decomposition (temperature > 250 °C), vapours potentially dangerous to health may be released.

11. Toxicological information.

According to currently available data, this product has not yet produced health damages. Anyway, it must be handled carefully according to good industrial practices. This product may have slight health effects on sensitive people, by inhalation and/or cutaneous absorption and/or contact with eyes and/or ingestion.

11.1. Information on toxicological effects.

Information not available.

12. Ecological information.

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or sewers or contaminate soil or vegetation.

12.1. Toxicity.

Information not available.

12.2. Persistence and degradability.

Information not available.

12.3. Bioaccumulative potential.

Information not available.

12.4. Mobility in soil.

Information not available.

Tenax Spa FINEGRES

Revision nr.1
Dated 15/01/2018
Printed on 15/01/2018
Page n. 4 / 4

12.5. Results of PBT and vPvB assessment.

Information not available.

12.6. Other adverse effects.

Information not available.

13. Disposal considerations.

13.1. Waste treatment methods.

Neat product residues should be considered special non-hazardous waste. The hazard level of waste containing this product should be evaluated according to applicable regulations. (2000/532/CE) (EWC – Nr. 120120). C.E.R. code: 120104 (dust and particles of non-ferrous materials).

Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations.

Solid residues may be suitable for disposal in an authorised landfill site.

CONTAMINATED PACKAGING

Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

14. Transport information.

The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

15. Regulatory information.

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture.

Seveso category. None.

Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006.

None.

Substances in Candidate List (Art. 59 REACH).

None.

Substances subject to authorisation (Annex XIV REACH).

None.

Healthcare controls.

Information not available.

15.2. Chemical safety assessment.

No chemical safety assessment has been processed for the mixture and the substances it contains.

16. Other information.
